Information

27 June. 1 boxcar and 15 flatcars with load exceeding standard measurements arrived in Frankfurt/Oder for dispatch to Glauchau,

25X1

30 June. 1 converted boxcar and 8 flatcars from Frankfurt/Oder to Neustrelitz

25X1

1 July. One train with load exceeding standard measurements from Frankfurt/Oder to Riesa

25X1

1/2 July. 36 flatcars with a load of 1,000 tons which exceeded standard measurements from Rostock to Brest Litovsk.

25X1

1. Comment. The shipments probably consisted of T-54 tanks. The shipment on 27 June is possibly identical with a shipment reported previously with 26 flatcars. The receiving station mentioned indicates that the shipment was consigned to the 220th Hv Tank SP Regt of the Eighth Gds Army stationed there. Provided that T-54 tanks were actually shipped which was inferred from the fact that the load exceeded standard measurements, this would be the first case that a rifle army was supplied with new type tanks. The shipment on 30 June was consigned to the 9th Gds Tank Div. The shipment on 1 July was consigned to the 9th Tank Div. 25X1
2. Comment. Probably ponton parts and/or floating cranes from the Neptun shipyard to the ~~USSR~~. Similar shipments had already been reported in December 1954.

1. Comment. The shipments probably consisted of T-54 tanks. The shipment on 27 June is possibly identical with a shipment reported previously with 20 flatcars. The receiving station mentioned indicates that the shipment was consigned to the 220th Hv Tank SP Regt of the Eighth Gds Army stationed there. Provided that T-54 tanks were actually shipped which was inferred from the fact that the load exceeded standard measurements, this would be the first case that a rifle army was supplied with new type tanks.
